The Law Relating to Newspapers and Periodicals.

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.
2. If subscribers order the discontinuance of their papers, the publishers are not responsible for the same until the subscribers have paid the subscription for the current month.
3. If subscribers neglect to pay for their papers, the publishers are not responsible for the same until the subscribers have paid the subscription for the current month.
4. If subscribers neglect to pay for their papers, the publishers are not responsible for the same until the subscribers have paid the subscription for the current month.
5. If subscribers neglect to pay for their papers, the publishers are not responsible for the same until the subscribers have paid the subscription for the current month.

PHOTOGRAPHS.

Photographic Frames!

S. W. Sawyer having remodelled his Rooms at 100 State St. at Cambridge in New York, is prepared to make for the public in the best style of the art, all kinds of photographic work, and to give particular attention to the copying of old and new photographs, and to the making of new ones from old ones. He has also received a large assortment of photographic frames, from the latest of the best of the country, making his stock of frames the best in the city.

ELECTRICITY!

DRS. DEMING BROTHERS.

WOULD most respectfully announce to the public that they have taken a course of study in the science of Electricity, and are now prepared to give instruction in the same.

Electropathic Treatment.

We would especially notice the afflicted, that are laboring under the various forms of Nervous Prostration, in the form of Epilepsy, Hysteria, White Swelling, Paresis, and other diseases, and who are unable to perform their ordinary duties, and who are in need of a powerful remedy.

Consumption.

In every instance where the acute stage of the disease has not yet reached its height, and the patient is in a state of health, and is able to perform his ordinary duties, and is in need of a powerful remedy.

Consumption.

In every instance where the acute stage of the disease has not yet reached its height, and the patient is in a state of health, and is able to perform his ordinary duties, and is in need of a powerful remedy.

Consumption.

In every instance where the acute stage of the disease has not yet reached its height, and the patient is in a state of health, and is able to perform his ordinary duties, and is in need of a powerful remedy.

Consumption.

In every instance where the acute stage of the disease has not yet reached its height, and the patient is in a state of health, and is able to perform his ordinary duties, and is in need of a powerful remedy.

Consumption.

In every instance where the acute stage of the disease has not yet reached its height, and the patient is in a state of health, and is able to perform his ordinary duties, and is in need of a powerful remedy.

Consumption.

In every instance where the acute stage of the disease has not yet reached its height, and the patient is in a state of health, and is able to perform his ordinary duties, and is in need of a powerful remedy.

Consumption.

In every instance where the acute stage of the disease has not yet reached its height, and the patient is in a state of health, and is able to perform his ordinary duties, and is in need of a powerful remedy.

Consumption.

In every instance where the acute stage of the disease has not yet reached its height, and the patient is in a state of health, and is able to perform his ordinary duties, and is in need of a powerful remedy.

Consumption.

In every instance where the acute stage of the disease has not yet reached its height, and the patient is in a state of health, and is able to perform his ordinary duties, and is in need of a powerful remedy.

Consumption.

In every instance where the acute stage of the disease has not yet reached its height, and the patient is in a state of health, and is able to perform his ordinary duties, and is in need of a powerful remedy.

Consumption.

In every instance where the acute stage of the disease has not yet reached its height, and the patient is in a state of health, and is able to perform his ordinary duties, and is in need of a powerful remedy.

Consumption.

In every instance where the acute stage of the disease has not yet reached its height, and the patient is in a state of health, and is able to perform his ordinary duties, and is in need of a powerful remedy.

Consumption.

In every instance where the acute stage of the disease has not yet reached its height, and the patient is in a state of health, and is able to perform his ordinary duties, and is in need of a powerful remedy.

Consumption.
